

Waterloo Corner Road Resurfacing Works

Night Works

Resurfacing works are required to remediate sections of Waterloo Corner Road to improve the road surface. The works involve removing the existing pavement and replacing it with new asphalt.

How this affects you:

There will be changes to traffic conditions to keep everyone safe. **Waterloo Corner Road will be closed between Heaslip Road and Ascot Drive with a detour in place at night during work hours.**

Please detour via Salisbury Highway, Kings Road and Port Wakefield Road (please see detour map overleaf).

Local detours will also be in place, please see on site signage and follow traffic management directions while works are in progress.

Local access will be maintained during the works, however, some short-term property access and on-street parking may be impacted. The project team will contact affected properties directly in advance. Speed restrictions will remain in place until line marking is fully completed. Following the completion of resurfacing works, further shoulder works will be required. These activities will be undertaken in the following weeks with advance notice to be provided.

Access on Bolivar Road across Waterloo Corner Road will be maintained for the majority of the works however, short-term access restrictions may be required. Please follow direction of traffic management.

Pedestrians and cyclists might also need to use a different path during the works; however, signs will show you where to go. Access will be maintained for emergency services vehicles at all times.

Bus stops in the area might be affected for a short time. Please pay attention to the signs at the bus stops and check the latest updates at [adelaidemetro.com.au](https://www.adelaidemetro.com.au) for more information.

During the works there might be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during asphalt work.

For any traffic management queries during the nighttime working hours please contact the Department's contractor, Downer **1300 012 413**.
