

Princes Highway Corridor Upgrade

Works Update

We are currently undertaking upgrades along the Princes Highway, from Meningie to the South Australian / Victorian border, to improve long term safety and efficiency for all road users. The upgrades are funded through the \$190 million Princes Highway Corridor Program, jointly funded by the Australian (80%) and South Australian (20%) governments.

What's happening:

Works to construct new northbound and southbound overtaking lanes approximately nine kilometres north of Millicent are continuing. Upgrades to a culvert located on Princes Highway is now required.

How this affects you:

There will be changes to traffic conditions to keep everyone safe. Princes Highway will be reduced to a single lane with temporary signals in place to control the direction of traffic.

Outside of working hours these speed and lane restrictions will need to remain in place. Temporary speed limits apply to all road users in the work area, even when workers are not on site.

Some noise disturbance can be expected at times, however the work will be managed to minimise disturbances as much as practically possible.

Please plan your trips, be cautious around workers, and follow the speed limits and signs.

When

Monday, 20 November 2023 to Wednesday, 22 November 2023

Hours of operation

7am to 5pm

Where

Princes Highway junction with Bells Road / Argyle Road

Australian Government

Government of South Australia

Department for Infrastructure and Transport
