

Strathalbyn Road

Maintenance works

We're continuing maintenance works on Strathalbyn Road and will soon start targeted shoulder sealing and road surface repairs. Vegetation management will continue.

What's happening:

To improve safety for road users, we'll be starting targeted shoulder sealing works and road surface repairs next week.

How this affects you:

Some temporary lane closures and speed restrictions will apply around our work areas. At times contraflow will be operating with temporary traffic lights controlling the direction of travel. For safety reasons some restrictions will stay in place when workers are not on site.

There may be some delays so please plan ahead.

If we need to restrict access to your driveway for a short time, we'll speak with you ahead of time and make every effort to minimise any inconvenience.

Access for emergency services will be maintained at all times. Works will be planned to avoid forecast catastrophic fire days.

Some noise can also be expected but we'll make every effort to minimise impact to residents wherever possible.
