

Old Princes Highway Resurfacing

Night Works Notification

General maintenance works are required to remediate sections of Old Princes Highway to improve the road surface.

What's Happening:

We are undertaking general maintenance, including asphalt patching, at multiple locations along the Old Princes Highway to improve the road surface.

How this affects you:

To keep everyone safe while we undertake these works, speed and lane restrictions will be required. Please follow onsite traffic signage and follow the direction of traffic controllers while works are in progress.

Speed restrictions will be required until line marking is fully complete which is expected in early June 2024, weather permitting.

Pedestrians and cyclists might also need to use a different path during the works; however, signs will show you where to go.

During the works, there might be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during asphalt work.

Bus stops in the area may be affected for a short time. Please pay attention to the signs at the bus stops and check the latest updates at [adelaidemetro.com.au](https://www.adelaidemetro.com.au) for more information.

For any traffic management queries during night work hours please contact the Department's contractor, **Pro Bitumen on 0439 173 221**.

If these works are impacted by inclement weather, they will be rescheduled to the next business day.

For further information:
